BOARD

DECISION

No. 219, dated 10.08.2026

ON

**ON DETERMINING THE ELECTRICITY SALE PRICE APPLIED BY THE SUPPLIER
OF LAST RESORT FOR JULY 2026 FOR CUSTOMERS CONNECTED TO THE 35 kV
VOLTAGE LEVEL**

Pursuant to Articles 16 and 110(4) of Law No. 59/2026 “*On the Power Sector*”; the *Methodology for Determining the Electricity Sale Price Applied by the Supplier of Last Resort*, approved by ERE Board Decision No. 201, dated 4 December 2017, as amended by Decision No. 144, dated 25 June 2018, and Decision No. 233, dated 20 December 2019; and Article 15 of the *Regulation on ERE Organisation, Operation and Procedures*, approved by ERE Board Decision No. 96, dated 17 June 2016; the ERE Board, at its meeting held on 10 August 2026, after reviewing Report No. 2384/1, dated 7 August 2026, prepared by the Tariffs and Prices Directorate, “*On Determining the Electricity Sale Price Applied by the Supplier of Last Resort for July 2026 for Customers Connected to the 35 kV Voltage Level*”,

The ERE Board found that:

I - Legal and Procedural aspects

1. Submission of the application by FSHU sh.a.

By official letter No. 4784, dated 3 August 2026, registered with ERE under protocol No. 2384, dated 3 August 2026, FSHU sh.a. submitted an application for approval of the electricity sale price for July 2026 for customers connected to the 35 kV voltage level and supplied by the Supplier of Last Resort.

2. Review of the documentation by ERE

The application was reviewed in accordance with Article 15 of the *Regulation on ERE Organisation, Operation and Procedures*, approved by ERE Board Decision No. 96, dated 17 June 2016; Articles 16 and 110(4) of Law No. 59/2026 “*On the Power Sector*”; and the *Methodology for Determining the Electricity Sale Price Applied by the Supplier of Last Resort*, approved by ERE Board Decision No. 201, dated 4 December 2017, as amended.

II – Analysis of the Calculation of the Electricity Sale Price Applied by the Supplier of Last Resort for July 2026 for Customers Connected to the 35 kV Voltage Level

1. Purchase of Electricity on the Power Exchange

For July 2026, FSHU sh.a. secured the electricity quantities required for this category of customers through daily/monthly purchases on the Albanian Power Exchange (ALPEX),

based on the procured daily profiles, daily/hourly prices and the corresponding invoiced amounts.

2. Calculation of the Weighted Average Electricity Purchase Price (CBEt)

Based on the data submitted, FSHU sh.a. calculated the weighted average electricity purchase price for July 2026 at ALL 11.32/kWh. ERE also verified this value through its own recalculation, which resulted in a weighted average electricity purchase price of ALL 11.32/kWh, consistent with the calculations submitted by the company.

3. Components according to the Methodology (Article 8, decision no. 201, dated 04.12.2017, as amended)

In accordance with the Methodology, the components used to calculate the electricity sale price are as follows:

- **Weighted average electricity purchase price (CBEt) for July 2026: ALL 11.32/kWh;**
 - **Electricity transmission service tariff for the period 1 January 2025 - 31 December 2027, approved by ERE Board Decision No. 279, dated 16 December 2024: ALL 0.85/kWh;**
 - **Distribution service tariff at the 35 kV voltage level, pursuant to ERE Board Decision No. 312, dated 12 December 2025, “On Maintaining in Force until 30 April 2026 the Electricity Distribution Tariffs” approved by ERE Board Decision No. 73, dated 13 April 2022: ALL 1.55/kWh;**
 - **Administrative cost: 1.06 ALL/kWh;**
 - **Official exchange rates** published by the Bank of Albania (ALL/Eur), for each respective date during the period **30.06.2026 – 30.07.2026.**
- In implementation of the Methodology for Determining the Electricity Sale Price Applied by the Supplier of Last Resort, taking into account the application submitted by FSHU sh.a. and ERE’s calculations, the electricity sale price for customers supplied by the Supplier of Last Resort for July 2026 is calculated as follows:

<i>The electricity sale price applied by the Supplier of Last Resort for customers connected to the 35 kV voltage level for July 2026</i>			
		Unit	Price
CBEt	Weighted Average Electricity Purchase Price	ALL/kWh	11.32
Pr	Risk Return determined as an annual percentage (3%)	ALL/kWh	0.34
CA	Administrative Costs of the Supplier of Last Resort	ALL/kWh	1.06
TRr	Transmission Network Use Tariff	ALL/kWh	0.85
TSHt	Distribution Network Use Tariff	ALL/kWh	1.55
Electricity Sale Price = CBEt + Pr * CBEt + TRr + TSHt + CA		ALL/kWh	15.12

- Based on each component of the calculation formula and taking into account the data submitted in the company’s application, it results that:

- The electricity sale price applicable to customers connected to the 35 kV voltage level and supplied by the Supplier of Last Resort is *ALL 15.12/kWh* for July 2026.

Decides:

1. To determine the electricity sale price applied by the Supplier of Last Resort for July 2026 at ALL 15.12/kWh for customers connected to the 35 kV voltage level..
2. Any change in any component used to calculate the electricity sale price applied by the Supplier of Last Resort for the category of customers specified in this Decision shall constitute grounds for review of this Decision by the ERE Board.
3. The Tariffs and Prices Directorate shall notify the applicant of this ERE Board Decision.

This Decision shall enter into force immediately.

Any party involved in this procedure may request ERE to review this ERE Board Decision within 7 (seven) calendar days from the date of receipt of the Decision, if new evidence has been obtained that may lead the Board to reach a different decision or if material errors are identified. An appeal against this Decision may be lodged with the Administrative Court of Tirana within 45 (forty-five) calendar days from the date of its publication in the Official Gazette.

This Decision shall be published in the Official Gazette.

ERE CHAIRMAN
