DECISION

No. 98, of date 09.04.2026

ON

DEFINING THE ELECTRICITY SALE PRICE FROM THE SUPPLIER OF LAST RESORT FOR MARCH 2026 PERIOD FOR THE CUSTOMERS CONNECTED IN 35 KV VOLTAGE LEVEL

Based on Articles 16 and 87, point 4 of Law no. 43/2015 “*On Power Sector*” as amended; the *Methodology on defining the electricity sale price from the supplier of last resort*, approved with ERE Board Decision no. 201, of date 04.12.2017, as amended with Decision no. 144, of date 25.06.2018 and Decision no. 233, of date 20.12.2019; as well as Article 15 of the *Regulation for ERE organization, operation and procedures*, approved with ERE Board Decision no. 96, of date 17.06.2016; ERE Board, on their meeting of date 10.03.2026, after reviewing the report Protocol no. 793/1, of date 06.03.2026, prepared by Tariffs and Prices Directory “*On defining the electricity sale price from the supplier of last resort for March 2026 period for the customers connected in 35 kV voltage level*”,

Observed that:

I - Legal and Procedural aspects

1. Submission of the request from FSHU company

- FSHU company with the official letter Protocol no. 2457, of date 01.04.2026, ERE protocol no. 1043, of date 01.04.2026, submitted the request to approve the electricity sale price for March 2026 period, for the customers connected in 35 kV voltage level, which are supplied from the Supplier of Last Resort.

2. The process to review the documentation by ERE

The request is reviewed in conformity with Article 15 of the “Regulation on ERE organization, operation and procedures”, approved with ERE Board decision no. 96, of date 17.06.2016, as well as in support of Articles 16 and 87, point 4, of Law no. 43/2015, “On Power Sector”, as amended, as well as the “Methodology for defining the electricity sale price from the supplier of last resort”, approved with ERE Board decision no. 201, of date 04.12.2017, as amended.

II – Analysis for the calculation of electricity sale price from the Supplier of Last Resort for March 2026 period, for the customers connected in 35 kV voltage level

1. Electricity purchase on the exchange

For March 2026 period, FSHU company ensured the electricity amount to cover the request for energy of this customer's category by daily/monthly purchased at the Albanian Power Exchange (ALPEX).

2. Calculation of Weightened Average Purchase Price (ÇBEt)

Referring to the submitted data, it results that the weightened average electricity purchase price (ÇBEt) that is calculated from the company for March 2026 period is **10.23 ALL/kWh**. For checking the control of the submitted data, it was considered reasonable their recalculation, from which resulted that the weightened average electricity purchase price is **10.23 ALL/kWh**, as reflected even on the calculations submitted from the company itself.

3. Components according to the Methodology (Article 8, decision no. 201, of date

04.12.2017, as amended) According to the respective methodology, the components used for the calculation of electricity sale price are as follows:

- **Weightened average price of electricity purchase (ÇBEt)** for March 2026 period: **10.23 ALL/kWh**;
 - **Transmission service tariff** of electricity purchase for 1 January 2025 – 31 December 2027 period, approved with ERE Board Decision no. 279, of date 16.12.2024: **0.85 ALL/kWh**;
 - **Distribution service tariff** on 35 kV voltage level, according to ERE Board Decision no. 288, of date 23.12.2024, "On letting into force ERE Board Decision no. 73, of date 13.04.2022": **1.55 ALL/kWh**;
 - **Administrative cost: 1.06 ALL/kWh**;
 - **Official exchange rate published by the Bank of Albania (ALL/Euro)**, for each respective date of **27.02.2026 – 30.03.2026 period**.
- Implementing the "Methodology for defining the electricity sale price from the Supplier of Last Resort", referring to FSHU company application as well as being supported on ERE calculations, the electricity sale price for the customers supplied from the Supplier of Last Resort for March 2026, is calculated as follows:

<i>The electricity price supplied by the Supplier of Last Resort for the customers connected in 35 kV voltage level for March 2026 period</i>			
		Unit	Price
CBEt	Average weightened price of electricity purchase	ALL/kWh	10.23
Pr	Risk of Return defined in in percentage per year (3%)	ALL/kWh	0.31
CA	Administrative cost of the Supplier of Last Resort	ALL/kWh	1.06
TRr	Tariff of using the transmission network	ALL/kWh	0.85
TSHt	Tariff of using the distribution network		1.55
Electricity Price = CBEt + Pr * CBEt + TRr + TSHt + CA		ALL/kWh	14.00

- Based on each element of the calculated formula as well as considering the data submitted on the company's application, it results that:

- The electricity sale price for the customers connected in 35 kV voltage level, supplied from the Supplier of Last Resort results *14.00 ALL / kWh for March 2026* period.

For all of the above, ERE Board,

Decided:

1. Defining the electricity sale price supplied from the Supplier of Last Resort for March 2026 period of about 14.00 ALL/kWh for the customer connected in 35 kV voltage level.
2. The change of each component element in the calculation of electricity sale price supplied from the Supplier of Last Resort for the customer category that is specified on this decision, shall constitute a reason for the review of ERE Board Decision.
3. Tariffs and Prices Directory, shall inform the applicant regarding ERE Board Decision.

This decision enters immediately into force.

Each party involved in this procedure may request the review of the ERE Board's decision within 7 calendar days from the date of receipt of this decision, in the presence of new evidence that may lead the Board to issue a different decision or in cases of identified material errors. An appeal against this decision may be filed with the Administrative Court of Tirana within 30 calendar days from the date of its publication in the Official Gazette.

This decision is published on the Official Gazette.

ERE CHAIRMAN

Petrit AHMETI
